

# HEADER ORDER FORM

**Fax # 610-970-1126**

**PLEASE NOTE:** You must make sure the headers fit your ordered application **BEFORE** you coat them. Cutting the flange plates to make individual pipes will usually make the headers easier to install but be sure to mark the pipes so that they will go back into the collector as they were when manufactured. To avoid any misunderstanding this order form must be filled out completely. Our custom headers will be built to your specifications as stated on this order sheet. Your signature on this document will get the order process started. Our headers are a custom manufactured product and as such are not returnable.

**Shipping and handling costs are not included in the header price.**

I have read these terms and accept them. Signed \_\_\_\_\_

Make, Model, Year of Vehicle \_\_\_\_\_

Make of Engine \_\_\_\_\_ SB BB Is motor in stock location? \_\_\_\_\_

Tall Deck or Std. \_\_\_\_\_ Head Type / Brand, Style, Part # \_\_\_\_\_

Port Shape (Circle one) Round Rectangular "D" Any Porting Done? \_\_\_\_\_

Bolt Pattern of Flange (if not sure give gasket # ) \_\_\_\_\_ Using Adapter Plates? \_\_\_\_\_
